Why ACiQ?

ACiQ started with a simple idea – bring high-quality, high value ductless mini-split products into American homes. The response has been fantastic, and we have grown each year, adding exciting new products along the way. Now, ACiQ has a complete catalog of products for every need, all while preserving our mission – to offer high-quality and high value heating and cooling to the public. What’s more, the entire lineup features best-in-class warranty protection so you can feel secure about your investment.

Installation Kit Inclusions:

- Air Handler
- Remote Control
- Rubber Feet
- 2 AAA Batteries
- Plasticene
- Condenser
- Mounting Plate
- Line Sets
- Plastic Wrap
- Wall Cap
- Screws (Short)
- Anchors
- Drain Elbow
- Power Cords
- Drain Lines
- Screws (Long)

01 Turn any non-air-conditioned space into a comfortable living environment.

02

Inverter Technology

Air conditioning units equipped with an inverter and a variable-speed compressor consume less energy and operate noticeably quieter compared to traditional counterparts. In contrast to conventional systems that cycle on and off, an inverter compressor smoothly adjusts its speed to match the required capacity for maintaining the homeowner's chosen comfort levels within a conditioned zone

03

Gold Fin Technology

The Gold Fin Coating stands as a formidable defense against corrosive elements, providing your system with a robust anti-corrosion layer. This advanced coating is meticulously engineered to shield your system, ensuring prolonged durability and resilience. By forming an effective barrier, it preserves the coil's integrity, allowing it to maintain outstanding heat transfer properties for an extended duration. With the Gold Fin Coating, your system not only boasts enhanced protection but also sustains optimal performance over the long term, promising enduring efficiency and reliability.

04

Leak Detection

Leak Detection

Cut maintenance costs by using leak detection technology, identifying issues early to streamline maintenance calls. Swift resolution not only saves time but prevents larger HVAC problems. Prioritize systems with this feature for cost savings and system longevity.

05

Smartphone App

Smartphone App

Gain complete control over your entire home directly from your smartphone. Fine-tune settings, manage airflow, and adjust temperatures effortlessly using the Smart Phone App. Experience advanced home control at your fingertips, making it easier than ever to create a personalized and comfortable living environment tailored to your preferences.

06

Ultra Low Temperature Operation

Ultra Low Temperature Operation

Eliminates frost on the outdoor coil during low ambient temperatures while concurrently stopping the indoor fan to prevent the circulation of cold air into the controlled space. The system works in sub-zero temperatures and keeps from freezing or sending cold air into your house.

07

Intelligent Remote Display

Intelligent Remote Display

Each indoor unit includes a smart remote with an intelligent display for effortless control. Manage settings, airflow, and temperature with ease, and even diagnose potential issues directly from the intuitive display. This user-friendly interface provides comprehensive control and troubleshooting capabilities, ensuring a hassle-free experience in optimizing your indoor environment.

Applications

ACiQ mini split systems offer versatile temperature control, making them ideal for installation in various areas of your home. Whether it's a bedroom, living room, kitchen, dining room, garage, or sunroom, these systems provide efficient heating and cooling tailored to each space. Enhance your home's comfort with ACiQ, designed to meet your specific needs in every room.
